

## Experiencer Bill of Rights

**Providing the foundation for respectful and supportive treatment of UAP/NHI experiencers, dispensing guidance to safeguard their health, well-being, and dignity.**

The UAPMed Experiencer Bill of Rights aims to assist healthcare professionals and first responders when working with experiencers of unidentified anomalous phenomena/non-human intelligence (UAP/NHI), and address the stigmas that may undermine diagnoses, treatments, and successful health outcomes. UAPMed promotes the development of professional training to raise UAP/NHI awareness and improve treatment of UAP/NHI health-related effects. We advocate for public policies that address the needs of UAP/NHI experiencers, support research of UAP/NHI health-related effects, and develop new support mechanisms.

**UAPMed believes every individual who experiences UAP/NHI has a**

**1. Right to Information**

Experiencers have a right to be informed about support resources and educational materials that provide physiological, psychological, and historical data from UAP/NHI incidents and exposures.

**2. Right to Investigation**

Experiencers have a right to have their reported incident addressed by first responders and to request an inquiry conducted by law enforcement.

**3. Right to Recognition**

Experiencers have a right to seek services from a medical professional without stigma, ridicule, or dismissal, and to have their reported incident treated as a legitimate event.

**4. Right to Safety and Security**

Experiencers have a right to physical and emotional safety and security in a healthcare environment.

**5. Right to Privacy**

Experiencers have a right to anonymity, including digital profile privacy and conduct, in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA), as amended.

**6. Right to Physical Care**

Experiencers have a right to seek a physiological evaluation and to receive treatment for any acute or chronic health-related adverse effects of their UAP/NHI exposure.

**7. Right to Mental Health Care**

Experiencers have a right to seek a mental health evaluation and to receive treatment for any acute or chronic health-related adverse effects of their UAP/NHI exposure.

**8. Right to Professional Guidance**

Experiencers have a right to seek professional counseling services and support networks that can help them navigate their personal path forward in a respectful and ethical environment.

**9. Right to Healing and Recovery**

Experiencers have a right to achieve personal growth, healing and recovery at their own pace, without pressure to conform to others' expectations.

**10. Right to Informed Consent**

Experiencers have a right to make autonomous, informed decisions about whether to participate in any research studies, treatment methods, public discourse, or publication of personal information.
